- Female adapter for EG "Quick Change" system
- Metal casing with velcro attachment of resin insert
- For use with [3-inch EG Resin Insert](#) to prevent scratches on the surface of the floor

### Description

## EG Metal Adapter - Velcro Attachment

The "EG Resin Insert"

and the "EG Metal Adapter - Velcro Attachment" are made to work together.

It is common for contractors to omit the resin insert from the process; however, the purpose of the resin insert is to prevent the metal velcro adapter from contacting the floor and causing scratches if a diamond pad becomes worn down or thrown from the holder.

Therefore, it is vitally important to use both the resin insert and metal adapter together for all resin diamond steps!!

- Female adapter for EG "Quick Change" system
- Metal casing with velcro attachment of resin insert
- For use with 3-inch EG Resin Insert to prevent scratches on the surface of floor
- 3-inch diameter
