### Description

## IMPACTS S410E Shot Blaster

### For Blasting Projects 2,800 SF (280 M<sup>2</sup>)

The S410E Shot Blaster is a unique machine to the industry because similarly sized machines do not have as much horsepower.

It not only outperforms other blasters for brush blasting, but also blasts more productively in coating removal applications for large projects. Because of the high HP, it also works great on steel deck surface preparation.

- Working width: 16 in. (410mm)
- Achieve a high blasting performance on medium to large-sized projects
- Uses the durable IMPACTS "Side-Force" Liner System with wear-resistance manganese metal
- Strong drive motor with integrated brake
- Optimized weight
- Height-adjustable drive handle with integrated handling instruments

- Recommended dust collector: IMPACTS Dustcom 4025
