- Life expectancy: 9,000 SF (900 m<sup>2</sup>)
- Use with water
- Available in any diameter between 7 to 27 inches and in assorted grits

## Description

### STI CASH Diamond Dots - Concrete Restoration & Polishing

The STI

CASH Diamond Dots are excellent for casinos, convention centers, airports, schools, hotels, hospitals, and anywhere else that quick and effective restoration and polishing of concrete is required.

Use for concrete restoration with auto-scrubbers, burnishers, or swing machines.

For the best life, production, and result, STI recommends using the CASH Dots on a burnisher outfitted with the grey driver. For assembly, attach CASH Dot pad to a white pad of the same size and then attach both to the grey driver.

Note: Cost of both the CASH dots and CASH pads systems are less than \$.003/SF (\$.03/m<sup>2</sup>).

- Used for restoration and polishing of concrete floors
- Can be run on auto-scrubbers, burnishers, or swing machines
- System steps: #1, #2, and #3
- Made of rubber pad, resin diamond pads adhered to front, and velcro backer
- Life expectancy: 9,000 SF (900 m<sup>2</sup>)
- Always use water with CASH dots!
- Be green — no chemical is required to achieve shine; however, STI recommends Hertron International's Prime Grind 2 for abrasion resistance, slip resistance, and color enhancement.
- Assorted grits available

#### **CASH Dots sizes:**

- 17-inch & 21-inch = fits most electric buffers and scrubbers
- 7-inch size = for hand grinding machines

- Also, available in any diameter between 7 to 27 inches
