Short Description

- Leaves a smooth profile for further polishing or installation of floor material
- Dry removal tool only
- 3-in. metal bond diamond
- Available in four bonds: standard, soft, hard, and extra hard

Description

#0 Surface Prep Tool - Concrete Surface Preparation

The #0 Prep Tool leaves a smoother profile for further polishing or installation of floor material.

The #0 Prep Tool is a metal bond preparation tool that has the EG attachment system as a standard for use on any P/M Machines. Its uses are to remove adhesives, thin-sets, surface inequalities of +/-4mm and epoxy coatings with thickness of less than 4mm.

The #0 Prep Tool is designed to be used as a dry removal tool only. The #0 Prep Tool is made for use on concrete and should never be chosen to grind terrazzo, marble, or granite.

The concrete profile after using the #0 Prep Tool will be one that is consistently scratched and resembles 80 grit sand paper. Approximate life of the #0 Prep Tool is 30,000 SF (3,000 M²).

- Dry removal tool only
- 3-in. diameter
- 8mm thickness
- Metal bond diamond
- Available in four bonds: standard, soft, hard, and extra hard

For super fast surface prep that leaves a rougher profile, use the [#00 Surface Prep Tool!](#)
