

Dustcom 3324

The dust collector Dustcom 3324 from IMPACTS is an extremely powerful dust collector to be used together with medium size to larger surface preparation equipment. These new innovative details give optimized handling performance on the job site:

- All in one “lifting lock” for the dust bin handling
- Big, ergonomically optimized dust bin
- Removable, changeable dust host connection
- No edges and obstacles outside the frame
- Optimal dimensions, high performance
- Electro-pneumatic compressor regulations

Specifications
