

60-year-old concrete floor
polished to perfection by the
EGT Diamond System

Before

SUBSTRATE TECHNOLOGY, INC. POLISHED CONCRETE SYSTEMS

The EGT and CLC concrete polishing diamond systems by Substrate Technology, Inc. are easy-to-follow, high quality metal-bond and resin-bond diamonds.

EGT System (for dry polishing) and CLC System (for wet polishing) are built with STI's strict standards, and guaranteed for long life & fast results, which equal HUGE savings for you!

Unlike coatings that wear off, the EGT and CLC systems create a true mechanical shine. In other words, there is absolutely NO need for a guard to add that "pop" to the final floor.

The EGT/CLC shine lasts for years and requires much less maintenance to maintain the beauty of the floor.
