

# Streamer S210E

## 430 SF/Hr. (40 M<sup>2</sup>)

**STREAMER**  
Premium Shotblasters

The IMPACTS S210E is the first 110V blaster with the In-Line Separation system. This means better separation of abrasive and dust as well as superior production over similar priced shot blast machines.

Its compact design is ideal for residential contractors, small areas inherent on large projects, and where limited access work areas are in need of a profiled surface.
