CONCRETE SLURRY REMOVER
SLURRYSAFE AR™

NAME	ITEM NUMBER
SlurrySafe AR *(Four x 1 gal. jugs)*	385000004

SlurrySafe AR™ is an acid-free, synthetic, eco-friendly replacement for all hydrochloric / muriatic acid usage.

SlurrySafe AR™ formulation is a highly effective aggressive cleaning product that reacts and dissolves calcium-based deposits from concrete slurry on grinding equipment, auto scrubbers, vacuums, tools, and diamond tooling.

Although SlurrySafe AR™ is an aggressive pH acid, it is safe on skin, pumps, pipes, filters, paint, rubber, and most metals. Will not affect velcro or its adhesives on tooling.

FEATURES & BENEFITS

- 100% biodegradable, EPA-approved
- "Triple Zero" hazardous material score
- Non-toxic, non-fuming, no VOCs, safe on skin
- Descales and eliminates foulants and rust
- Requires no corrosion inhibitor
- High pH neutralizer
- Non-regulated by U.S. DOT
- Dilution ratio: 1:1 with clean water
